

TABLES °

STEP 1: AND WERE DONE

Receive your dream table!

SCREW IN THE LEGS

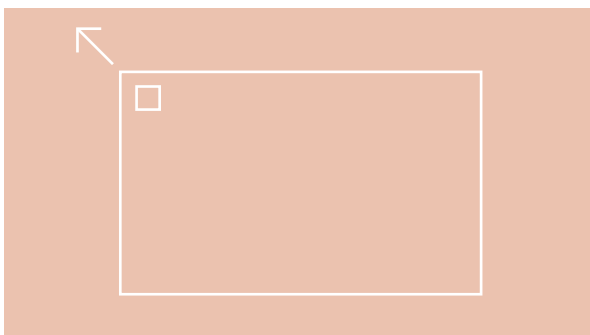

Place your table top face down on a soft surface to ensure you don't scratch anything

Place legs in designated pockets. Orient the legs so the bottom of the leg is furthest away from the center

SECURE EVERYTHING IN PLACE

Our legs have an angle - make sure all 4 legs are angled out when you view them from the top down

Use screws to fasten the legs - flip over and you're done
